

Season's Greetings!

It's been a busy and exciting year in the Frazee household. We have now lived in our current house for a year and it still feels like we just moved in!

Chris has now worked as a Network Engineer for Temboo, a start-up that does behind-the-scenes work in cloud computing, for over a year. He likes his job and gets to learn new things, and best of all, gets to work from home! This has come in very handy since Theresa started working in July, and Chris has become more of a house-husband than ever before. Having finished his last course in seminary, Chris has only an internship left, which he will complete this summer. Then he will get his master's degree! Chris has also done some projects on the house, including stripping the deck and building a chicken coop (with the boys' help).

In August, Theresa finished her coursework for medical coding and needs to complete an internship to get her certificate. In July, Theresa also got a part-time job as a page at Gresham Library and is enjoying it very much. She likes the work, the atmosphere, and her co-workers. Most of the rest of her time is spent chauffeuring the kids all over the place. During the Christmas season, Theresa also does several piano-related things like accompanying kids' Christmas programs, playing for church, and putting on her own Christmas recital for her three piano students.

Samuel is a freshman in high school! Where did the time go? He is attending Portland Lutheran and likes it very much. Samuel has already completed a cross-country season and is now on the JV basketball team. He maintains his high GPA at the same time and scored phenomenally on the pre-ACT test. He continues to enjoy Minecraft, Starcraft, and various other electronic games. Samuel now stands 6 feet tall and helps out a lot around the house. He and Chris built a chicken coop during the summer.

Victor is in 7th grade and attending Knova Learning, a public charter school. He is popular with his peers and likes to amuse others with his impersonations of various actors and accents. Like his brother, he also enjoys electronic games; Victor likes to be active too, playing soccer and football during school recess and PE. He has a plethora of exercise equipment which he likes to utilize, including a punching bag and weights. Victor spent quite a bit of time this summer helping Chris strip the back deck and has also passed up his mom in height!

Maria is in 2nd grade and still attending GPCA. She excels in school, having gotten all As on her first report card of this year! She is also very social, active, fiery, and cheerful. It's hard for her parents to keep up with her! So what better place for her to be than in drama? She completed a beginning drama class recently and loved it. Her group got to do a modernized version of Snow White for the end-of-class performance and Maria was one of the dwarves.

In other news, sadly, Chris' grandmother passed away this year, at the age of 97. She will be greatly missed.

We wish you the best and look forward to hearing about what is happening in your lives!

Love always,
Chris, Theresa, Samuel, Victor, and Maria Frazee
